

# Soldering Station Instruction manual

Please read this manual before use.

Soldering Station acts as your third hand to help with difficult soldering jobs when using Euro style connectors and ultra plugs. Featuring 8 holes on the head of the station for holding both the male and female euro connectors, it also has a clamp that can hold down an ultra plug in both its upright and laydown position and which can also hold your ESC, leaving you free to concentrate on the soldering.

## ① European connectors

## ② Ultra plugs(male & female)

## ③ ETC
